FEDERAL QUESTION
Threatens Unenumerated Rights

The Cause of Actions on 04/13/2026; 4/16/2026; 05/16/2026, 04/03/2024, 07/01/2025 where the Plaintiff alleges the Federal government, FBI Task Force of using directed energy pain weapons that can degrade and immobilize a person to inhibit the plaintiff ' s free speech, out of government alarmism - in this case UAP, also threatens the Second Amendment - the right to bear arms. Here a weapon that government has is far superior to that of citizens where proportionality heavily favors government. Citizens or states can systematically be immobilized and disarmed by the Feds, not necessarily the military, in very much the same manner the plaintiff alleges, using remote targeting to degrade and immobilize inhibiting the Second Amendment and unenumerated rights as stated in the 9th Amendment which could disappear using unchecked powers and disproportional technology superiority, UAP drones with DEWs, despot militarized police Fusion methods, as alleged in this complaint - the FBI ' s JTTF. State laws on prohibitions on lasers for citizens but not the authorities further increases disproportionality. Those owning guns would dwindle instigating a push for gun control. A tyrannical leader or foreign invader could use our own directed energy intermediate force capabilities (DE IFC) to prevent asymmetrical/freedom fighter resistance. Using this emerging technology (DE IFC) out of the public ' s eye against targeted civilians placed on watch-list, a proposed social credit score digital ID system, exploiting counter-terrorism loopholes, conspiring against rights, military civil fusion by US IC profling targets like the Plaintiff who is a freedom fighter, not abiding to treaties like the Geneva Conventions are a further erosion of our rights to unchecked government powers at the DoJ, FBI, DHS, ATF.
